

Slow It Down

Fat Nick

They all saying Hi 'cause I got all this ice on
Poured me up a four, told me I had to slow it down

They all saying Hi 'cause I got all this ice on
Broke boy talking, told his ass to pipe down
Poured me up a four, told me I had to slow it down
Used to ride backseat, smoking any hoe now
They all saying Hi 'cause I got all this ice on
Broke boy talking, told his ass to pipe down
Poured me up a four, told me I had to slow it down
Used to ride backseat, smoking any hoe now

I just dream and lean till my eye lids close
Party water on me baby, here I came to motorboat
If she wanna love me, I put it in her throat
Shorty wanna cry, why you think she held my phone?
I just hit it once then I tell her bounce
Baby, hit me up, phone be ringing out
I don't pick it up, I'm not high enough
Shout out to my plug, he gon' get me now

(She gon' act tough 'cause I'm nice tonight
Got some cookie roll, dropped a pint in my sprite
She gon' act tough 'cause I'm nice tonight
Got some cookie roll, dropped a pint in my sprite)

They all saying Hi 'cause I got all this ice on
Broke boy talking, told his ass to pipe down
Poured me up a four, told me I had to slow it down
Used to ride backseat, smoking any hoe now
They all saying Hi 'cause I got all this ice on
Broke boy talking, told his ass to pipe down
Poured me up a four, told me I had to slow it down
Used to ride backseat, smoking any hoe now

In the backseat, fur hood
Gucci shades on my cold face
I only fuck with goddesses
Don't care what her hoes say
Hiding from your bitch but she already know me
I was told to shine and so, so go ahead throw shade
A mirror place the plug, you don't even know
Been through hell now I'm too unbreakable
Once she rail me she don't even take no call
When she rang me she don't even wanna talk
Riding around this city in a black top benz
Drop men, no tints, I'm bringing it
Can't help my energy, this for good
'Cause I'm hanging round with some roof feeling top drunk
Death threats, bitch, do something
In real life they don't do nothing
Her and her friend got my crew busting
Got a shiny spout 'cause I do love it
Bitch, who want it? Tonight the night
I'ma be outside shining in the moonlight

They all saying Hi 'cause I got all this ice on

Broke boy talking, told his ass to pipe down
Poured me up a four, told me I had to slow it down
Used to ride backseat, smoking any hoe now
They all saying Hi 'cause I got all this ice on
Broke boy talking, told his ass to pipe down
Poured me up a four, told me I had to slow it down
Used to ride backseat, smoking any hoe now

(She gon' act tough 'cause I'm nice tonight
Got some cookie roll, dropped a pint in my sprite
She gon' act tough 'cause I'm nice tonight
Got some cookie roll, dropped a pint in my sprite)
