

Songs On The Radio

Fat Nick

Black hair tatted she's a deadly attraction
Love it when you drive me crazy, let's get lost in the madness
All my bitches broken I attract the damaged like magnets
Phaded now I'm fucked up love is on stagnet

Late nights feel so lonely without you
Wanna feel your touch I'm nowhere around you

Can't take you back I'm fucked up about you
I see your face in hers when she walks through
Late at night
Call me if you're lonely I'll be by your side
3 AM I'm nauseous in the dark tonight
Late at night
By your side
Dark tonight

Hate you, now I'm trynna forget you
And your perfume, it's been stuck in my bedroom
Now I wanna run away from the girl in the mirror
All the love you ever gave me turned to life term terror

Late nights feel so lonely without you
Wanna feel your touch I'm nowhere around you

Can't take you back I'm fucked up about you
I see your face in hers when she walks through
Late at night
Call me if you're lonely I'll be by your side
3 AM I'm nauseous in the dark tonight
Late at night
By your side
Dark tonight

I've been fucked up I know you can't save me
I'm still here so maybe call me baby
I've been fucked up I know you can't save me
I'm still here so maybe call me crazy
I can't give up my fingers on the trigger
She's asked what I've become
I've never seen it clearer
Can't give up my fingers on the trigger
She's asked what I've become
These scars are full of glitter

Can't take you back I'm fucked up about you
I see your face in hers when she walks through
Late at night
Call me if you're lonely I'll be by your side
3 AM I'm nauseous in the dark tonight
Late at night
By your side
Dark tonight

Can't take you back I'm fucked up about you
I see your face in hers when she walks through
Late at night

Call me if you're lonely I'll be by your side
3 AM I'm nauseous in the dark tonight
Late at night
By your side
Dark tonight
