

## O Chloroform

Fates Warning

See what you've done, holding your tongue  
Now tell me who's the delirious one  
So safe and warm o chloroform  
Keep us from coming around again

Lets say the sun turns up again  
Lets say its the same one that's ever come  
No stars can round you up again  
They're suffering so long, so long

That photograph tore you in half  
So the sane can escape the past  
True to form o chloroform  
Get the windows and the door

Home on the border  
You can write yourself a letter  
Wave to the camera  
And keep your body warm

Lets say the sun turns up again  
Lets say its the same one that's ever come  
No stars can round you up again  
They're suffering so long, so long

And no one takes over when you fall asleep  
Ten hours of eternity  
Tell yourself and call yourself a refugee  
We're suffering so long, so long
