## **Saints In Hell**

## **Fates Warning**

They laughed at their gods And fought them in vain So he turned his back on them And left them in pain Now here come the saints With their banners held high Each one of them martyrs Quite willing to die

Wake the dead, the saints are in hell Wake the dead, they've come for the bell

Cover your fists Razor your spears It's been our possession For eight thousand years Fetch the scream eagles Unleash the wild cats Set loose the king cobras And blood sucking bats

Wake the dead, the saints are in hell Wake the dead, they've come for the bell

We are saints In hell We are saints In hell We're going down Into the fire We're going down Into the fire

The streets run with blood from the mass mutilation As carnage took toll for the bell

Abattoir, abattoir, mon Dieu quelle horreur For a time it was like second hell

Saints in Hell Saints in Hell

The battle is over, the saints are alive How can we all thank you, we felt so despised
