

## Buddy's Rendezvous

Father John Misty

Everybody's girl  
What's the point in being everybody's girl?  
Maybe you think that way there's no chance getting hurt  
Living for no one cost me way more than it's worth  
So you're gonna be a singer  
Well I'll be goddamn  
You're as pretty as a postcard  
No thank to the old man  
It's the same coat I had on  
The night that I went in  
I can stay an hour at Canter's  
The streets cool off by then  
When can I see you again?

Whatever happened to the girl I knew?  
In the wasteland come up short and end up on the news  
Whatever happened to the girl I knew?  
In the wasteland come up short and end up on the news

Everything you want  
What's the fun in getting everything you want?  
I wouldn't know but, look, baby you should try  
Forget that lefty shit, your mom drilled in your mind

Give the world a new savior  
Sell his pictures to the press  
Buy a place out in the country  
Leave this world for someone else

My destruction is an hour late  
I'm at Buddy's Rendezvous  
Telling the losers and old-timers  
How good I did with you  
They almost believe me too

Whatever happened to the girl I knew?  
In the wasteland come up short and end up on the news  
Whatever happened to the girl I knew?  
In the wasteland come up short and end up on the news  
Whatever happened to the girl I knew?  
In the wasteland come up short and end up on the news
