

## James

Fatherson

So stop all this fighting  
I'm not even worth it  
Running my mouth means  
I don't even deserve it  
Making my new friends, while missing my old ones  
I smile politely, now the damage is done

When I first came here, I thought I'd have a problem  
Moving away from home, make me wanna stay  
When I first came here, I thought I'd have a problem  
Moving away from home, make me wanna stay

So wake me up before you go, at least let me say  
Goodbye James

So stop all this fighting  
I'm not even worth it  
Running my mouth means  
I don't even deserve it  
Making my new friends, while losing my old ones  
I smile politely, now the damage is done

When I first came here, I thought I'd have a problem  
Moving away from home, make me wanna stay  
When I first came here, I thought I'd have a problem

Moving away from home, make me wanna stay

So wake me up before you go, at least let me say

So go home, sober up, take the weight off your feet and just ch
