

## You Left Me

Fats Domino

You left me all by myself  
Oh and I feel so bad  
Why did you leave me  
I would like to know

You told me that should never  
That we should never part  
When you went away and left me  
You broke my poor poor heart all apart

If you should ever leave me  
Call me, I'll be there  
No matter where you be  
I'll find you there
