

Us On a Bus

Fats Waller

Us on a bus
Riding on for hours
Through the flowers
When the passengers make love
Whisper bride and groom
That's us on a bus

Two in one seat
Love on every detour
You can be sure
That I'll show you how it feels
To honeymoon on wheels
With two in one seat

Slow down
Route twenty-seven is the nearest thing to heaven I know
Speed up
Start hitting sixty and my heart'll jump and thump
Oh oh, what a bump

Us on a bus
Kisses intimating

That we're waiting
'Til it's time to light the lamps
Hit the tourist camps
That's us on a bus, yeah

[Instrumental]

Slow down
They'll change a tire
While we'll send the folks a wire back home
Speed up
Step on the gas and as we're rolling, rolling, rolling 'long
Let's sing a song

Us on a bus
Gettin' off take
Time for a big time
The day to drive calls
Us on Niagara Falls
To us on a bus

All out swing city
