

cold shoulder

fats'e

See your shadow on the doorway
You become a silhouette
And now we're standing there in silence
Wishing that we never met

You don't have a thing to say
We both know that it's a wrap
Lost all our ambition
I don't think it's coming back

We weren't meant to be together, it's alright
It's something that we both knew buried deep inside
You keep your fingers crossed but know my hands are tied
I walked a tightrope for too long we wasted time
I let you down
Maybe we need closure
Shut me out
Give me the cold shoulder
There's nothing more that we can say to each other
Its over, its over, its over

We weren't meant to be together, it's alright
It's something that we both knew buried deep inside
You keep your fingers crossed but know my hands are tied
I walked a tightrope for too long we wasted time
I let you down
Maybe we need closure
You shut me out
Give me the cold shoulder
There's nothing more that we can say to each other
Its over, its over, its over
