

## Don't Bother

fats'e

I don't have anything to say lately  
I'm content but I wouldn't say happy  
Staring at walls sometimes disconnecting  
But my future might be looking up slightly

Just got a check it will motivate me maybe  
Forgot my past I'm in the moment entertaining  
Dropped out of school just so I could prove something  
You say 'small world' how the fuck do you know me though

And I don't care for all this flexing  
Yeah I've tried it makes me feel empty  
And I don't wanna hear no drama  
Used to say hit me up now don't bother

I don't really have a reason to be friendly  
I don't really have a temper make me angry  
Yeah I'm fucking sick of all this damn anxiety  
Holding me back from being just who I wanna be

Just got a check it will motivate me maybe  
Forgot my past I'm in the moment entertaining  
Dropped out of school just so I could prove something  
You say 'small world' how the fuck do you know me though

And I don't care for all this flexing  
Yeah I've tried it makes me feel empty  
And I don't wanna hear no drama  
Used to say hit me up now don't bother
