

# dopamine

fats'e

I don't really need you baby  
I just need the dopamine  
I'm a piece of shit and I've accepted that's the storyline  
Where did I go?  
Where did I go wrong?  
I went wrong in every single way, yeah let me answer that  
Now it's time for me to go with dirt all on the doormat  
Where did I go?  
Where did I go wrong?

Everything just feels so damn off and I'll take the blame  
I don't even recognize my face I hate my artist name  
Turnin' into somethin' that I'm not  
And I'm so scared of that  
I don't wanna live long enough to see myself fade

I don't really need you baby  
I just need the dopamine  
I'm a piece of shit and I've accepted that's the storyline  
Where did I go?  
Where did I go wrong?  
I went wrong in every single way, you let me answer that  
Now it's time for me to go with dirt all on the doormat  
Where did I go?  
Where did I go wrong?
