

fireworks

fats'e

Walk to the park
To see the fireworks
But it's too dark
I trip and fall apart
I wonder how
We'll ever meet again
'Cause it's been hard
I really need a friend

I really need a friend
I really need a friend

Lay in the dirt
And watch the sky again
Talk to myself
I know that's all I got
'Cause it's been hard
I really need a friend

I really need a friend
I really need a friend
