

ghost in my room

fats'e

Now there's a ghost in my room
He sings me to sleep
I feel less alone
When I hear the floor boards creak
Take me with you, anywhere but here
Take me with you, anywhere but here

(Anywhere but here)
(Anywhere but here)
(Take me with you, anywhere but here)

Now there's a ghost in my bed
I feel his heart beating
I wake up and I swear that there's someone there
I swear I'm not dreaming
Take me with you, anywhere but here
Take me with you, anywhere but here

(Take me with you)
(Take me with you, anywhere but here)

(Anywhere but here)
(Anywhere but here)
(Memories they haunt me)
(Memories they haunt me)
(Memories they haunt me, in this room)
(In this room)

The memories they haunt me
The memories they haunt me
The memories they haunt me, in this room
This room
The memories they haunt me
The memories they haunt me
The memories they haunt me, in this room
(In this room, oh)
This room
