

Give me-, babe, give me a chance
I promise I won't mess up no more
Everybody tell her to give me one chance
Tell her to give me one more chance
And I promise I won't mess up ever again

You mostly try to hold me down and say you'll never leave
And I know she tried to hold me down, but it still hurts me
And I can't hold it down because I always leave
She tried to pull me down, could you do the same for me?
We both keep tryna hold me down, but he said it's underneath
The world keeps tryna pull me down, and it might break me

Just say we're meant to be
Whenever you shut me down
And I actually wondered how
I would just pretend, I would say it's fine like what you worried 'bout?
Well, actually, I think
There's things to worry 'bout (So what do you want to do?)
Like what it is you want from me?
And it actually kinda hurt you sticking up with me
Even though I'm at my lowest, it's too hard to leave
Even though I'm at my lowest, I'll escape the pain
Youngburial, thank you for the goddamn party

I've been feeling like a fiend
It's been way too many days since I've been clean
I've been off the pill, think I've found a cheat
I was down, but now I'm feeling up
I can't feel a thing for her, I think I'm fucked
I been running from myself, but I feel good
Turn my back on you because I had no trust
Can't trust anyone

You mostly try to hold me down and say you'll never leave
And I know she tried to hold me down, but it still hurts me
And I can't hold it down because I always leave
She tried to pull me down, could you do the same for me?
We both keep tryna hold me down, but he said it's underneath
The world keeps tryna pull me down, and it might break me

Oh, shit
Oh, uh, gnosticgospels, thank you for the, the nine
Youngburial, thank you for the goddamn party
