

## hypocrite

fats'e

I'm happy all the time  
Actually like once a week  
I don't need love  
Actually that's all I need  
I don't need help  
But can someone come help me  
I'm a broken hypocrite contradicting what I need

I barely exist I feel distant  
Fallen down the stairs no ambition  
If I bash my head I deserve it  
See you talking shit in my mentions  
I don't really care keep on talking  
I don't really care if I'm nothing  
I don't really need validation  
I don't really need validation

I'm happy all the time  
Actually like once a week  
I don't need love  
Actually that's all I need  
I don't need help  
But can someone come help me  
I'm a broken hypocrite contradicting what I need
