

## i am so confident and cool af all the cuties want me

fats'e

I-I-I-I don't really give a fuck, I'm done being an outcast  
Next year I'ma live my life how I want with no set-backs  
I've been playing shows across the country, you can't stop me  
I don't got no time for opps, you mad because you're not me  
I'm just trying to be confident, hope I'm not cocky  
People unintentionally make me feel like nothing  
So I got to prove 'em wrong 'cause fuck 'em, do you feel me?  
Yeah, do you feel me?

Or am I rambling?  
Girls that used to curve me, hit me up, it's flattering  
I'm finally doing something right, tell those who doubted me  
I went from scraping by to paying rent with Spotify  
I don't mean to flex, I don't wanna be that guy  
I'm done, I'm done, I'm done wasting my time  
Don't have a lot of friends, it's fine  
Yeah I'm done waiting in line  
Don't need anybody, I'm alright  
Yeah I'm done wasting my time  
Don't have a lot of friends, it's fine  
Yeah I'm done waiting in line
