Watch

Will I sink in the water  
It's lonely to be in love  
If I am more, I am more  
Jaded then ever  
Just left, but I miss your touch  
B-B-Black my eyes, just punch me, drag me  
Slit holes in my eyes  
Why am I, why am I, mean to break it off  
I hate this, but I want more

I don't wanna leave you behind, but you  
You blew my mind, a little bit  
Can you tell me everything, that I did wrong  
So I won't be so empty, when I walk alone  
What do, what do you want from me now  
Tell me, tell me what you need from me now  
I'll do my best, I know I'm a wreck  
You know that I'm trying, why are you upset? Wait  
Do you know that I care?  
Maybe I'll try to just disappear

Watch

Will I sink in the water  
Counting the days to my death, feels like a gun to my head  
Maybe you will pull the trigger instead  
Isn't it me that's better  
I feel better

[?] it still hurts  
Trying to care  
I feel so [?]  
But you don't care  
I know that I'm scared  
I look through the dark  
Trying to do this again
