

## long way home

fats'e

You are listening to arson green nostalgia  
It's a long way home  
XLHC  
Youngburial

I-I-I-I-I learned my lesson  
That night I passed out in the bushes  
In front of all of us was all for all, I give no shit  
I don't wanna be a VIP, it's awkward  
I'ma stay at home and dim [?], it's absurd  
I-I-I think I'm going back but I don't fall like them  
They relax and watching TV while I make this shit  
Fall out-fall out, lose my mind  
I seem like I'm okay  
Stressin' while I'm pushin' all this pain down

Wait, I'm not really like that  
Too scared, backpedal, always getting sidetracks  
(It's a long way home)  
Always so lost in my thoughts  
If you want to get me talking, gotta get me on the rocks  
Make me fucked but I forgot  
Now I took too many shots  
Didn't know that I was capable of being what you want until you  
're sick of it  
It was good to feel on top for a little bit
