

In the morning
You don't wanna be alone
And every night goes by real slowly
I wish we weren't so far apart

And I wonder
If we fall off the edge
In the next world, would we find each other?

I just wanna be the one
You make me feel so numb
I just wanna be the one
For you
I just wanna be the one
You make me feel so numb
I just wanna be the one
For you

I can't go on trying to hide
The way I feel for you
No more
I can't go on trying to hide
The way I feel for you
No more

In the evening
I just wanna call your phone
But I'm too scared you won't pick up
I'm scared you're with somebody else

And I wonder
If we fall off the edge
In the next world, would we find each other?

I just wanna be the one
You make me feel so numb
I just wanna be the one
For you
I just wanna be the one
You make me feel so numb
I just wanna be the one
For you

I can't go on trying to hide
The way I feel for you
No more
I can't go on trying to hide
The way I feel for you
No more
