Oh no, it's not looking good for us
Cold Shoulder
Garden Avenue

When we're face to face, you gas me up
When doors are closed, I'm dirt
I've seen the way you move, it throws me off
It makes me think that you're
A different person hiding right in front of us
It makes me shudder
I have a feeling if you'd get the chance
You'd leave me in the gutter

You remind me of a manager that I had that extorted me
You're acting like a snake but unaware, that shit is comedy
I'm burning Palo Santo, smoking j's, enjoying company
You're spreading negativity, you're wasting all your energy

And now I'm spreading negativity, you got inside my head
I need to break the cycle
But it's hard because you're a fed
There's another side of you I've seen
I swear it makes me shudder
I have a feeling if you'd get the chance
You'd leave me in the gutter

You remind me of a manager that I had that extorted me
You're acting like a snake but unaware, that shit is comedy
I'm burning Palo Santo, smoking j's, enjoying company
You're spreading negativity, you're wasting all your energy
