

there's hope

fats'e

I see myself in you
I feel your thoughts across the room
When I feel stuck, and I can't move
Just take my body, it's no use

Just take my limbs, and make them numb
I'll take your pain, I feel it too
When I feel stuck, and I can't move
Just take my body, it's no use

So let us just pretend
And trade me all regrets
We're so far from the end
We just need to reset

I'm sorry I've been distant lately, we should reset
Let me take your pain in any way that I can
Everything is changing, life is changing so fast
Let me take your pain in any way that I can

I see myself in you
I feel your thoughts across the room
When I feel stuck, and I can't move
Just take my body, it's no use

Just take my limbs, and make them numb
I'll take your pain, I feel it too
When I feel stuck, and I can't move
Just take my body, it's no use

Just take my thoughts and make them new
Just take my limbs and make them new
Just take my limbs and make them new
Just take my limbs and make them new
