

time lost

fats'e

Spent a month too fast
And I can't get you, can't get you out my head
Spent my life outcasted
And that's my downfall
I'm not trying my best

Wonder where the time went
Yeah, it could've been better spent
Yeah, it could've been better spent
I wonder where the time went
Yeah, it could've been better spent
Yeah, it could've been better spent

Cause you don't know what you are
You reach for the stars
But you just don't know
I tried to save time
But it passed me by
Yeah, it passed me by

There's probably something that I should've said here
Back then, before heartbreak and regret
I remember when she told me that there were just three of them
Jealously and demon scars on my neck
Your beauty makes them want to lean in for a kiss
Tell me, tell me
Help me
The way you felt it looking at my lips
Skil

Wonder where the time went
Yeah, it could've been better spent
Yeah, it could've been better spent
I wonder where the time went
Yeah, it could've been better spent
Yeah, it could've been better spent
