

**very cool**

**fats'e**

Been here half a decade and I barely made a friend  
It's bittersweet to leave this place but I guess that I never f  
it  
I made a lot of enemies and best believe I hold a grudge  
Y'all fake as fuck, y'all climbing over others while we watch a  
nd judge

Very cool, very cool, very very very cool  
When you lie right to my face  
Don't have the passion, you're a fool  
Very cool, very cool, very very very cool  
You're considered a disgrace by everyone who knows the truth

And I feel like there's no one else that knows me  
No, I can't be your friend  
I can't trust nobody  
Heartbeat pounding, out my chest, out my body  
Off these drugs, my life a fucking mess, need some clarity

Need some room to breathe  
With urgency, it's an emergency  
The things you said to me  
They cut me deep just like surgery  
Been poppin' 2 or 3s just to sleep  
Something's wrong with me  
You don't love me like you say you do  
It ain't hard to see

Very cool, very cool, very very very cool  
When you lie right to my face  
Don't have the passion, you're a fool  
Very cool, very cool, very very very cool  
You're considered a disgrace by everyone who knows the truth

And I feel like there's no one else that knows me  
No, I can't be your friend  
I can't trust nobody  
And I feel like there's no one else that knows me  
No, I can't be your friend  
I can't trust nobody
