

Cruise Control

Fatty Koo

I met this young man
Just the other day
Set my world on fire
In a special way
He had the prettiest smile
That I ever seen
Had my feeling like a day dream

Hey are you goin my way
Baby can I take you there

It was the first night of spring
And love was everywhere
I didnt think twice
As I jumped into his ride
Street Lights Flashin By
As I whispered in his ear

We can ride on cruise control
In the drop top
singing to that old school soul'
Baby Close your eyes
And Kiss Me

Then she made me lose control
She was so hot couldn't keep my eyes on the rode
Then she touched me

Smooth ride
Down the rode side
Underneathe the starlite sky
Im beside you

Relax sit back enjoy the ride
Ill put it in auto drive

Are you down to be my boo

Baby. We can take this where you wanna go

Oh Girl
Tell me what you really like
There's no wrong or right
And thats just what we'll do

Let me eeze your body baby
From head to toe
Gently moving closer
Take it nice and slow
I couldnt resist
Such a sweet and tender kiss
Time stood still
It was feeling like paradise

We can ride on cruise control
In the drop top
singing to that old school soul'

Baby Close your eyes
And Kiss Me

Then she made me lose control
She was soo hot couldnt keep my eyes on the rode
Then she touched me
