

# Lighting Up

Faul & Wad

This night  
I'm out in the pouring rain  
Looking for shelter  
To feel safe again

But this time  
I won't surrender  
I'll keep on fighting  
Until I find freedom

I will follow my heart  
It shows me the way  
Lighting up the dark  
Turning night into day

If I knew from the start  
It was all inside of me  
Lighting up the dark  
Turning night into day

If I knew from the start  
It was all inside of me  
Lighting up the dark  
Turning night into day

When things get complicated  
I have to trust myself  
And no one else  
Can break my faith

When things get complicated  
I have to trust myself  
And no one else  
Can break my faith

I will follow my heart  
It shows me the way  
Lighting up the dark  
Turning night into day

If I knew from the start  
It was all inside of me  
Lighting up the dark  
Turning night into day

If I knew from the start  
It was all inside of me  
Lighting up the dark  
Turning night into day
