Steady your face jor for me  
I wanna take a picture  
So this could last longer for me (Longer for me)  
Yeah, take my secrets  
Guard them like precious money (Precious money)  
I never want to hear you quiet  
So I write songs for you (Write songs for you)  
So I write songs for you (So I write songs for you)

And I believe, yes, I believe  
I'm falling for you like a thief, weak in the knees  
'Cause when I see you  
I fit to steal the keys to your heart again (Your heart again)  
Yeah, yes, I believe, yes, I believe  
I'm falling for you like a thief, weak in the knees  
'Cause when I see you  
I fit to steal the keys to your heart again (Your heart again)

My baby bad  
My baby good  
My baby all the things I need  
My baby buss up the silence o (Buss it up, buss it up)  
My baby buss up the silence o (Buss it up, buss it up)  
My baby bad (Hey)  
My baby good  
My baby all the things I need

Whether rich or poor  
I know that you are my best best best bet

'Cause when I see you  
I fit to steal the keys to your heart again, whoa-whoa
