

Cold War

Fave

(Oh no no)
(Oh no no)

No issue
It's getting dangerous but no issue
I tell you my story but you no fit to know
And even if you know
You know I broke into this
It's getting serious that I sold my peace
Fell so many times and I hurt my knees
No real friends when I was not all like this
Chase music when nothing dey for my jeans
This is unlike me

Oh my God it's a cold world (war)
Family kill family and it's cold blood
(Why why why?)
Why can't you see that there's no love?
Only one Llonna when I show up
I paralyze but I no fall
So many things but I no talk
God on my side so I no foh
Only one soldier when I go war

Breddah man I been done dirty
This life e be discovery
They burn me out like cannabis
Hold me up to pedigrees
I heard them say they don't believe
Man, I heard them say they don't believe
Shoulda learned quicker
I'm my own believer
Shoot down, conversations with them fake losers
They just around for the ride
I don't know what's worse
Is it the way they make you think you can confide in them
Put a couple dollars on the line for them
Later on the internet you see them talking down on you, in front of you

Oh my God it's a cold world, war (it's a cold world)
Family kill family and it's cold blood (and it's cold blood)
Why can't you see that there's no love? (why can't you see?)
Only one Llonna when I show up (only one only one)
I paralyze but I no fall (no no no)
So many things but I no talk (oh oh oh oh oh)
God on my side so I no foh (oh my side, oh my side)
Only one soldier when I go war (only one, only one)
