

M.O.M.M.S

Fave

You came and drove me insane
With the wild in your eyes
I'd last a lifetime with you
I just want that kinna view
You came and broke my pain
With the wild in your eyes
I'd last a lifetime with you
I just want that kinna view

Have a mask
Here are my sins
I don't believe in what anyone else sees
Except you are guiding that party
And you watching
All my every move
Have a mask
Here are my sins
I don't believe in what anyone else sees
Except you are guiding that party
And you watching
All my every move

Take a mask for my sins
Do you need loving like everyone else's?
Oh yeah
Help me mask all my sins
Or darling, would you love me, love me, love me?
Take a mask for my sins
Do you need loving like everyone else's?
Oh yeah
Help me mask all my sins
Or darling, would you love me, love me, love me?

Would you love me?
I need to know that
Or would you leave me lonely
I know I deserve that
Would you love me?
I need to know that
Or would you leave me lonely
I know I deserve that

Take a mask for my sins
Do you need loving like everyone else's?
Oh yeah
Help me mask all my sins
Or darling, would you love me, love me?

Ooh oh oh
(Would you love me like I want, I need?)

Waiting for love in the backyard
Looking for what's not lost
We're waiting for love in the backyard
Looking for what's not lost

(You love me?)

I need to know that
Do you, do you, do you?)
