And We Dance

Favez

Sevi was a great conductor
He said won't you come outside
Down the road and up to marceau's
Where the kids all go

The street is ours and all the warnings
Flashing faintly down the tracks
Could never cut it, cut it out
We're going right down to the dance

And we dance and we dance
On holy waters
On ragged altars
That split the night

Jeannie was a strange impostor
She said won't you step inside
I wanna see you strip and squeal
I want you on my side
She could always kill the spirit
Of any party when she smiled
She never ever had a chance
But when the rain came ah we danced

And we dance and we dance
On holy waters
On ragged altars
That split the night
And we dance and we dance
On holy waters
On ragged altars
That split the night

So we dance and we dance and we dance
On hollywood waters
So we dance and we dance and we dance
On rivers and borders

Johnny has a call for nothing
He says man they're all around
For every one of them there's two
Who go down and then we dance and we dance

On holy waters
On ragged altars
That split the night
And we dance and we dance
On holy waters
On ragged altars
That split the night

So we dance and we dance and we dance
On hollywood
So we dance and we dance and we dance
On hollywood
So we dance and we dance and we dance
We're all looking around
