

Looking For Action

Favez

It started out with a bang my friend
It almost ended up in tears
And we've been choking on the same paradise for years
We need another spare solution
And space and time for some breathing
And a big romantic dream we could dance around

For all the sordid affairs
All the years
The commotion
It's haunted in here
I'm looking for action
Coming aboard
I was glowing and awed
But it's haunted in here
Give me some action

For all the carbon copied years we spent
Drenched out in the rain
You'll find a minute of compassion
And a minute of fame
I really need to spit it out
Give me a wrench and I'll tear it apart
I could kill for just an inch of head start

On all the sordid affairs
All the years
The commotion
It's haunted in here
I'm looking for action
Coming aboard
I was glowing and awed
But it's haunted in here
Give me some action
Shaking and scared
Of all the seeds in your head
They might have planted a bomb instead
