

The Man With Forehead Eyes

Favez

You can't always be heartbroken said the man with forehead eyes

But in case you feel constrained in case you fall there's a place

Where no one's wanted you go halfway down the hall and this time

I won't be with you you'll go far these days these days these days

We're always amazed these days these days all I do is just walk

In the haze these days (just slide it in) all I do is just walk in a haze

You'll untie the rope till morning but the needle's in the skin you go down

And you go under you can come out of here hell it pays to make them wonder

You'll never go back again so they says and the years you've had are over

No one's here these days we're always amazed
