

What Are You Going To Do With My Life

Favez

Undone

I liked it better when you were the strong one
It's rubbing off we're going down again

Straight lines

Our time is running out I need a new sign
What are you going to do with my life

Safeway

I really need a road hell I need Broadway
I'll walk down if you can't come up

And one day

We'll wonder what has happened to the old ways
What are you going to do with my life

What are you going to do with my life

What are you going to do with my life

Say what are you going to do with my life

Hey now

I can't start over again
I can't start over

Against you

I really need someone that I can run to
What are you going to do with my life
