Faydee

Like an assassin  
Shooting my heart down  
Like an assassin  
Shooting my heart down

I got my guard down  
I put my hands up  
Hoping you'd turn around  
Hoping you'd turn around

Just like a politician  
You talk yourself up  
Your just an empty promise  
I gotta wake up

I try and I try  
I hide in disguise  
Request you to love me  
but you just decline  
I give you my heart  
I trust you to keep it  
But you throw it away  
And all I'm left with is pieces

Like an assassin  
Shooting my heart down  
You gain ammunition  
When I pour my heart out

I got a problem  
I know the remedy

I gotta give you up  
But your taking over me  
Its like your on a mission  
To tear me up inside  
But I refuse to listen  
Even when my heart cries

I try and I try  
I hide in disguise  
Request you to love me  
but you just decline  
I give you my heart  
I trust you to keep it  
But you throw it away  
And all I'm left with is pieces

Like an assassin  
Shooting my heart down  
You gain ammunition  
When I pour my heart out

Its a cold cold world when you've got nothing left  
Just a picture perfect melody you'll never forget  
Close my eyes when I see ya  
Caz I cant bare to see the real ya

Like an assassin  
Shooting my heart down  
You gain ammunition  
When I pour my heart out
