

## Burn It Down

Faydee

Where did you come from? I wanna know  
The way that you're moving, it's hard to move on  
I can't help but feel what I feel for you baby  
I know we've just met but I hope you ain't taken

Senorita, I wanna get to know ya  
You got that kind of flavor  
That I just wanna taste and come back around  
Baby, I'm burning up like fire  
You're hotter than Dubai  
Together we can burn this motherfucker down

Together we can  
Together we can  
Burn this motherfucker down
