

Catch Me Pt. 2

Faydee

You have me up against the wall
Soon as you walk through the door
I couldn't look the other way
Think I forgot my name
And every girl that's in the room
Don't compare to you
You're taking over me
And everything that you do

Got me high on love, and it's all because of you
You're all that I've been thinking of
I gotta say that it's not like me
But it's all okay 'cause I can't get enough of love

You got me higher than ever
With every time you get closer
My heart beats over and over
So fast that I can't control it
It's all in the way that you move
What have I got myself into?
Would you catch me? I'm falling for you
Catch me, catch me
Would you catch me? I'm falling for you

I see you're staring down my way
See no one else in this place
Just put your hands around my waist
Now come and dance with me
Let me take all the love you air
Tell me a time and I'll be there
This is a dangerous love affair, ooh
There goes your hands around my body
Show me how you really want it
5 AM in my Bugatti
I'ma just meet you in the lobby
After dark it is me and you
Bacardi sip, but sip is through
Drunk of your love with all you do, ah

You got me higher than ever
With every time you get closer
My heart beats over and over
So fast that I can't control it
It's all in the way that you move
What have I got myself into?
Would you catch me? I'm falling for you
Catch me, catch me
Would you catch me? I'm falling for you

You've opened my heart, you've captured my soul
Only you can capture me
I'm falling in love, will you ever know?
Baby, let's live out our fantasy
You've opened my heart, you've captured my soul
Only you can capture me
I'm falling in love, but you need to know

You got me higher than ever
With every time you get closer
My heart beats over and over
So fast that I can't control it
It's all in the way that you move
What have I got myself into?
Would you catch me? I'm falling for you
Catch me, catch me
Would you catch me? I'm falling for you

Would you catch me? I'm falling for you
