

Crazy

Faydee

You and I
We're complicated more than ever
Everyday is somethin' new
There's no winner

I should've known
When you lied to me, lied to me
You make me feel like
You were right for me, right for me

And take me clear
You come right back to me, back to me
Somethings gotta change
Yeah my heart meets with my brain

I must be crazy for you
Crazy things I do only for you
No one drives me crazy like you do
I can't stand the thought of you with someone new ooh

I must be crazy for you
Crazy, yeah ooh
Crazy, yeah ooh
Crazy things I do only for you
I must be crazy for you

You and I make the world seem better
It's crazy what your love can do
For the pleasure

I should've known
When you lied to me, lied to me
You make me feel like
You were right for me, right for me

And take me clear
You come right back to me, back to me
Somethings gotta change
My heart meets with my brain

I must be crazy for you
Crazy things I do only for you
No one drives me crazy like you do
I can't stand the thought of you with someone new

I must be crazy for you
Crazy, yeah ooh
Crazy, yeah ooh
Crazy things I do only for you
I must be crazy for

Crazy things I do only for you
No one drives me crazy like you do
I can't stand the thought of you with someone new ooh

I must be crazy for you (crazy, baby)
Crazy things I do only for you (for you)

No one drives me crazy like you do
I can't stand the thought of you with someone new

I must be crazy for you
Crazy, yeah ooh
Crazy, yeah ooh
Crazy things I do only for you
I must be crazy for
