

# Dance To The Rhythm

Faydee

Can't stop moving  
Baby don't stop moving  
I can take you high  
Now baby light my fire  
Let it go let it go let it go

There's no limit to what we could be  
There's no limit between you and me  
Baby I want you close to me  
I need your energy to survive

Dance dance dance dance to the rhythm  
Make me your one and only reason  
Dance dance dance dance to the rhythm  
Make me your one and only reason  
My baby habibi  
Make me your one and only reason  
Dance dance dance dance to the rhythm  
Make me your one and only reason

I'm in love with you again tonight  
I want you close close close  
I'm in love with you I can't deny  
I want you close close close

Can't stop moving  
Baby don't stop moving  
I can take you high  
Now baby light my fire  
Let it go let it go let it go

There's no limit to what we could be  
There's no limit between you and me  
Baby I want you close to me  
I need your energy to survive

Dance dance dance dance to the rhythm  
Make me your one and only reason  
Dance dance dance dance to the rhythm  
Make me your one and only reason  
My baby habibi  
Make me your one and only reason  
Dance dance dance dance to the rhythm  
Make me your one and only reason

I'm in love with you again tonight  
I want you close close close  
I'm in love with you I can't deny  
I want you close close close
