

Do You

Faydee

I've been thinking lately
You're on my mind daily
I'm not trying to get so serious
But the way you got me feeling its serious, ooh
I love the way you handle you
You know I wanna want to
There is something in your eyes so dangerous
Got me looking like them awesome [?]
Ay ay
I am not trying to get so serious
But the way you got me feeling its serious

I've been feeling you, I've been feeling you
Tell me do you feel it too
Do you, do you, do you, do you
I've been feeling you, I've been feeling you
Tell me do you feel it too
Do you, do you, do you, do you

Girl you really had me chasing
Its not enough just to taste it
You way too good just to wasted
I need a girl who can ta-ta-take it
Girl you really had me chasing
Its not enough just to taste it
You way too good just to wasted
I need a girl who can ta-ta-take it

I've been feeling you, I've been feeling you
Tell me do you feel it too
Do you, do you, do you, do you
I've been feeling you, I've been feeling you
Tell me do you feel it too
Do you, do you, do you, do you

I ain't gonna lie to your face
But you're looking good from your head to your waist
Down to the way that you move to the bass
You know I want you now but you want me to cha-cha-chase it
I ain't gonna lie to your face
But you're looking good from your head to your waist
Down to the way that you move to the bass
You know I want you now but you want me to cha-cha-chase it

Girl you know I am feeling you
Tell me do you feel it too
Do you do you do you do you
Girl you know I am feeling you
Tell me do you feel it too
Do you do you do you do you

Then go get a taste...
