

Drive

Faydee

Dream
Do you ever dream so hard
You wake up in the morning in the dark
And wonder who you are
And you just dream
You don't know where to start
But then you find the one
Who's just as crazy as you are

We just drive
We keep on driving
Till we get somewhere
Only we can understand
We drive
We keep on driving
Till we get somewhere
Somewhere to begin
We're singing like

Blind
We can't see the signs
We're moving at hundred and sixty five
A place I don't recognize
An empty road
A pocketful of dreams we hold
With nothing but the music playing through my radio

We just drive
We keep on driving
Till we get somewhere
Only we can understand
We drive
We keep on driving
Till we get somewhere
Somewhere to begin
We're singing like

I-I-I, I-I-I-I have this feeling I-I-I could be someone
Could be someone
I-I-I, I-I-I-I have this feeling I-I-I could be someone
Could be someone

We just drive
We keep on driving
Till we get somewhere
Only we can understand
We keep on driving
We Keep on driving
Till we get somewhere
Somewhere to begin
We're singing like
