Faydee

Legendary love,  
forever You and Me.  
Underneath the sun,  
no other place I'd rather be.  
When it all falls down,  
we'll be dancing on our feet.  
When everyone's around,  
You're the only one I see.  
Legendary!

You and I, I,  
no one else compare to You and I, I.  
Round and they go,  
asking me why? Why?  
I love you like I do,  
like it's a crime, crime.  
You can see it in my eyes.

Every moment spent with you.  
Every time I think of You,  
I, I get high.  
You got me,  
doing things we'd never do,  
living now I'd dream just, You and I.  
We're so high.

Legendary love,  
forever You and Me.  
Underneath the sun,  
no other place I'd rather be.  
When it all falls down,  
we'll be dancing on our feet.  
When everyone's around,  
You're the only one I see.  
Legendary!

You're the only, only one  
only, only on.  
You're the only, only one  
only, only on.

In your eyes, eyes.  
Every time I look into your eyes, eyes.  
I see the world, the stars and all the skies, skies.  
Together wished I lie  
for 4th of July, I.  
You can see it in my eyes.

Every moment spent with you.  
Every time I think of You,  
I, I get high.  
You got me,  
doing things we'd never do,  
living now I'd dream just, You and I.  
We're so high.

Legendary love,

forever You and Me.  
Underneath the sun,  
no other place I'd rather be.  
When it all falls down,  
we'll be dancing on our feet.  
When everyone's around,  
You're the only one I see.

We had nothing to hide,  
we just make up the rules.  
There's no end,  
of what we wanna do.  
And together we shine,  
like the stars in in the moon.  
Just me and You..

Legendary love,  
forever You and Me.  
Underneath the sun,  
no other place I'd rather be.  
When it all falls down,  
we'll be dancing on our feet.  
When everyone's around,  
You're the only one I see.  
And we'll be legendary!

You're the only, only one  
only, only one.  
You're the only, only one  
only, only one.
