

# Lullaby

Faydee

Lullaby

You're the melody that keeps me warm all through the night  
All through the night

Woah

Oh, Lullaby [x2]

It doesn't matter where you are  
'Cause we could never be apart  
The way that you are  
The way that you whisper so softly  
You fill my desire

I knew it from the very start  
That you would go and steal my heart  
The moment you came  
You gave me the feeling I needed to bring back the fire

Lullaby

You're the melody that keeps me warm all through the night  
All through the night

Lullaby

Every time I hear you call my name I lose my mind  
I lose my mind

Woah

Oh, Lullaby [x2]

It's never gonna be the same  
'Cause every time you call my name  
You light up a flame  
That gives me something amazing that keeps us together  
The moment that I saw your face  
I knew I couldn't let you get away  
'Cause all of my life  
I only dreamed of this moment forever and ever

Lullaby

You're the melody that keeps me warm all through the night  
All through the night

Lullaby

Every time I hear you call my name I lose my mind  
I lose my mind

I don't even wanna let you go, no way  
I just wanna keep you safe with me  
Tell me you'll stay, forever here with me  
I don't ever wanna let you go, no way  
I just wanna keep you safe with me  
Tell me you'll stay, together here in this moment forever and ever

Lullaby

You're the melody that keeps me warm all through the night  
All through the night

Lullaby

Every time I here you call my name I lose my mind  
I lose my mind

Woah

Oh, Lullaby [x2]

Lullaby

You're the melody that keeps me warm all through the night

All through the night
