

Right Here

Faydee

Aaaah

I'm feeling some kinda way think I'm loosing my mind
I'm making bad decisions left and right
I don't need you to tell me I'll be alright
If you're just gonna disappoint me
I'm good right here
I'm good right here
I'm good right here
I'm good right here
I'm good right here

But you don't get it, get it
How many, how many times do I have to leave
For you to get it, get it
How many, how many, how many, how many

Why

I'm feeling so wide awake
When its 2 in the night
I'm making bad decisions left and right
Aaaah
I don't need you to tell me how to live my life

You're just gonna disappoint me
I'm good right here, no
I'm good right here
I'm good right here
I'm good right here
I'm good right here

How many, how many times do I have to
How many, how many, how many, how many

OK, OK, OK, I ain't playing no games
Be careful what you wish for
Cause you might just get it your way
Sometimes I wish you'd disappear
Quit yelling in my ear
I see you over there
But

I'm good right here
I'm good right here
I'm good right here
I'm good right here
I'm good right here
I'm good right here
I'm good right here
Woahooowoo
Woah
Woah
Woah
Woahooowoo
Woahooowoo

But you don't get it
For you to get it
How many, how many, how many, how many
