

Say What You Want

Faydee

Your love is like the time
I can never have enough of it, no
This time i've got it right
and i aint letting go of none of it
Your kiss is like a drug
The sweetest remedy my heart
Could every really want
So hard to believe
That parts of me found the missing piece

Things may not look perfect
But there perfect to me
She can drive me up the wall at times
But she brings me back down easily
They can say what they want to say to me
You can never take my love away

Its like a work of art
That nobody understands but you and i
The center of my heart
It never lies, never lies

Things may not look perfect
But there perfect to me
She can drive me up the wall at times
But she brings me back down easily
They can say what they want to say to me
You can never take my love away

Oh this time, this time, this time
No messing around
Im holding it down
Oh this time, this time, this time
I finally found
The one who's gunna hold me down

They can say what they want to say to me
You can never take my love away

They can say what they want to say to me
They can take my love away
They can say what they want to say to me
You can never take my love away
