

# Tonight

Faydee

Tonight is all about us  
And I can't wait to spend it... with you  
We celebrating our love  
And all the choice we had  
The tribulations we've been through  
Girl (girl, girl, you)  
You looking like a star tonight  
(And I know is that you)  
You wearing that dress I like  
I'm so proud to be your man  
And I know you understand  
I wanna make it last

Tonight  
Nothing matters but us  
No matter what comes up  
It's all about me and you  
And tonight  
I'm gonna give you the world  
Give you all you deserve  
Tonight, tonight, tonight (tonight)  
It feels nothing can stop us tonight  
It's all about us tonight  
Nothing gone stop us tonight  
It's all about us, tonight please don't stop us tonight'  
It's all about us tonight, tonight tonight tonight

It feels just like the first time  
You and I laying in the fallin rain  
I held you tight  
Then I make sure I caped you safe (SAY)  
And tonight ain't gonna change  
It's going our ride tonight (let me take you away)  
I will take you to the spot you like  
And I'm a do all I can  
So I'll hope you understand  
I wanna make it last tonight

Tonight  
Nothing matters but us  
No matter what comes up  
It's all about me and you  
And tonight  
I'm gonna give you the world  
Give you all you deserve  
Tonight, tonight, tonight (tonight)  
It feels nothing can stop us tonight  
It's all about us tonight  
Nothings gone stop us tonight  
It's all about us, tonight please don't stop us tonight'  
It's all about us tonight, tonight tonight tonight

I love that trust me (let me lead the way)  
Take you where you wanna be (let me lead the way)  
I love that you love me  
And make feel like no one matter (tonight)  
What can explain what I feel when I'm in with you

What can explain all I feel when I'm touching on ya  
What can explain how I feel what I feel  
Tonight Tonight
