

Lego Ring

Faye Webster

I want a Lego ring
I want it to hurt my finger
I want a Lego ring
I want it crystal clear

I, I know what I like
I know what I want
But you know I kinda need
I, I know what I like
I know what I want
But you know I kinda need

I want a Lego ring (Hey, hey)
It's a mood ring
It'll pick for me
(Hey, hey)
I want a Lego ring (Hey)
I wanna kiss it when I go to sleep

I, I know what I like
I know what I want
But you know I kinda need
I, I know what I like
I know what I want
But you know I kinda need

Melt me down, it's sunny
My new ring stick like honey
My wedding got tired
Came all black like tires, ayy
Me and you the dream team
Always together like string beans
Your left hand up in every pic
'Cause your Lego ring is sick
