

I wish  
I wish I was back down south with my cousins  
I got a few  
There wasn't much to do around  
You knew every face in town  
Yes you do

Oh well I  
I think you know by now  
I love that place  
I know it sounds a little crazy but maybe  
That Lone Star State could be the perfect place for me

I buy a new pack of picks every day  
Or guitar strings  
They would break  
They'd break for sure  
Whatever it was I played something new  
Every town we were in tune  
Yes we were

Oh and I  
I think you know by now  
I love that place  
I know it sounds a little crazy but maybe  
That Lone Star State could be the perfect place for me

Run away  
Run away  
I could do it  
Every day  
Every day  
But I [?]  
Good for me

Oh I  
I think you know by now  
I love that place  
I know it sounds a little crazy but maybe  
That Lone Star State could be the perfect place for  
I  
I think you know by now  
I love that place  
I know it sounds a little crazy but maybe  
That Lone Star State could be the perfect place for me
