

A Thousand Years

Fazerdaze

I watch the world go by and
Days start to multiply and
Months start to disappear I
Fold into a thousand years

I'm falling through the cracks and
Meld around all his edges
As long as I stay still it's
Almost nearly bearable

Don't stop to think about it
No use trying to get out of it
Cos there's no way out of here
Play to the crowd till I disappear
Just don't stop to think about it
No use trying to get out of it
Cos there's no way out of here
Play to the crowd till I disappear

Don't stop to think about it
No use trying to get out of it
Cos there's no way out of here
Play to the crowd till I disappear
Just don't stop to think about it
No use trying to get out of it
Cos there's no way out of here
Play to the crowd till I disappear

Don't stop to think about it
No use trying to get out of it
Cos there's no way out of here
Play to the crowd till I disappear
Just don't stop to think about it
No use trying to get out of it
Cos there's no way out of here
Play to the crowd till I disappear

Play to the crowd till I disappear
Play to the crowd till I disappear
Play to the crowd till I disappear
Play to the crowd till I disappear

I watch the world go by and
Days start to multiply and
Months start to disappear I
Fold into a thousand years
