

I was in a bright light  
Standing there alone  
I could feel it pull me  
Away from you  
It's strange and new  
And I'm swept up in a crowded room  
No one gets me like you do

We're caught between  
This life and dream  
But you and me  
We're bigger  
Let's try to figure this out

Half way out the doorway  
I know I shouldn't stay  
And in the morning I'll be a world away  
I'll grow, I'll change  
But when I'm gone it's clear to me  
You're where I always want to be

We're caught between  
This life and dream  
But you and me we're bigger  
Let's try to figure this out

When I'm gone it's clear to me  
Where I always want to be  
When I'm gone it's clear to me  
Where I always want to be  
When I'm gone it's clear to me (We're caught between)  
Where I always want to be (This life and dream)  
When I'm gone it's clear to me (But you and me, we're bigger)  
Where I always want to be (We're bigger)
