

Distorted Dreams

Fazerdaze

Fast fast forward
The blur takes hold of me
I lose my focus
Living a distorted dream

All these perfect things
All these perfect things
(Come in distorted dreams)

I move in slow motion
And time just happens to me
And as I get closer
It only gets harder to see

All these perfect things
(Come in distorted dreams)
All these perfect things

All these perfect things come in distorted dreams
All these perfect things come in
All these perfect things come in distorted dreams
All these perfect things come in

All these perfect things
(Come in distorted dreams)
All these perfect things
(Time just happens to me)
All these perfect things
(Come in distorted dreams)
All these perfect things

I'm sinking down below
Where the surface seems so far
But I just need to feel
Like I'm holding onto something real

All these perfect things
All these perfect things

All these perfect things
(Come in distorted dreams)
All these perfect things
All these perfect things
(Come in distorted dreams)
All these perfect things

All these perfect things come in distorted dreams
All these perfect things come in
All these perfect things come in distorted dreams
All these perfect things come in
