

# Jennifer

Fazerdaze

Caught in a dream field Jennifer  
Hills rise around us Jennifer  
Do you realise we're setting alight  
To the fields, to the fields  
Where we wait for our lives

Caught in a landslide Jennifer  
It's too late to stop now Jennifer  
Are you still waiting and wasting your fears  
Here it comes here it comes  
The life we never thought would begin

Cause I was waiting on the other side of the road  
You're always looking for way to make me slow down

Let it go now Jennifer  
We were so young Jennifer  
Are you still waiting and wasting all your time  
Let it slip through your hands  
Let it slip through like the sand

Cause I was waiting from the other side of the road  
You're always looking for a way to make me...

Slow down  
But what're you doing now  
You're always gonna be wading  
Through those fields

Miss you so bad  
Miss you so bad Jennifer
